GRADING HAS COMMENCED

Grading was commenced yesterday on the right of way from the end of the present B. Y. & P. railway. The line will be built up the hill to where the C. N. R. station site is located and will then be continued to Fort Saskatchewan. The right of way is one hundred feet wide, and the roadbed twenty-five feet. The first part immediately southwest of the B. Y. & P. station, where the men are at work, was covered with brush and the ground had to be grubbed before it could be plowed, to allow the scrapers to work. The right of way through Mr. Easton's property has not yet been settled, but this will not delay the work, as grading will be continued on the other side of his property. The road will then run southwest, hugging the river bank opposite the old Hudson Bay Fort. Engineer Ferguson, who has charge of this division of the C. N. R. construction, is at present definitely fixing gradients, etc. Comparatively few teams and mules are yet engaged on the work of construction, but the number is being increased daily and the work will be pushed along vigorously.

RECEIVING STATION

Ponoka Herald.
The government, through Mr. C. P. Marker, superintendent, has decided to establish a cream receiving station at Ponoka, through which farmers may ship to one of the government creameries on the line. The expenses of the station will be paid by the government for this season, so that the farmers will be required to pay only the uniform price of four cents per pound for manufacture. While in Calgary this week the writer interviewed Mr. Marker in the subject who stated that this arrangement gave the people of the Ponoka district all the advantages of a creamery with no additional expense and he hoped that would appreciate the efforts of the government in assisting the farmers in this way. Mr. Marker will be in Ponoka the first day the cream is shipped, which it is hoped will be the first of the coming week. Due notice will be given of the exact day as far as it is possible to do so.

W. J. Henry and J. T. Blaney visited Fort Saskatchewan yesterday.

J. T. Blaney left yesterday morning for Toronto and other Ontario points. He will be away about two weeks and during his absence will purchase all the machinery for his company's new mill.

The Rev. Fathers Lacombe, O. M. I. V. G. of Fischer Creek, J. J. M. Lessard, of McLeod, H. Boileau, of Duhamel; Van Wettin, of Wetaskiwin; L. Dauphin, of Bobbema, and Soltmann of Calgary, arrived yesterday by train from the south and proceed this morning to St. Alber to attend the funeral anniversary service of Bishop Grignon.

The mission opened last Sunday and so ably given by the Rev. Father Fitzpatrick, O. M. I., to Catholics and non-Catholics in St. Joseph's church of this town is very well attended. GOVERNMENT SURVEYS
J. K. McLaren, D. L. S., and survey party arrived in Edmonton last night from doing government survey work, laying out lines etc. between White Horse Lake and the Pembina River. The country in that district is heavily wooded, the trees being of a fair size and very thick. The height of land which divides the waters of the North Saskatchewan from those of the Mackenzie, is very low in this district, in fact, scarcely noticeable. The land is excellent, and although clearing will be considerably harder than in other, as yet, unbroken places, still the land will be all the better when cleared. Surveyors will be sent into this district to divide it into townships and it will then be ready for settlement.

THE REAL ESTATE TAX

Editor Bulletin:

It was a pleasure to hear it reported on the street yesterday that at a full meeting of the real estate agents held on Saturday night last they proposed lifting the iniquitous by-law just passed by the mayor and council, taxing those holding real estate one hundred dollars each for their labor in bringing the advantages of our town and district before the public in all parts of the world.

No town in the Dominion has any such tax imposed on the real estate men.

What are the citizens of the town doing generally about "excessive assessments," etc. Is a citizens' committee to be formed?

RE PRAIRIE FIRES AT VEGREVILLE

Editor Bulletin
Sir:-

I beg to call attention to the following clause in the Timber Regulations which may be taken advantage of by any settlers who have suffered from prairie fires:-

"Any settler in Manitoba or the Northwest Territories, who has lost his dwelling or other buildings by accidental fire, whether caused by prairie or bush fires, or in any other way not due to his own carelessness, may obtain a free permit to cut for the replacing of such buildings, the quantity of timber to which a home-steader is entitled free of dues."

Any settler who has had the great misfortune to have been burnt out by the recent prairie fires, might make affidavit to the facts and forward same to this office.

A. G. BARRISON,
Agent Dominion Lands.
Edmonton.

WHITE WHALE LAKE

The McLean survey party have finished their work in this vicinity and are now on their way toward. They report a fine stretch of prairie in township 51, ranges 5, 6 and 7, west of the fifth meridian, adjoining an exceedingly heavy belt of bush in township 52, same ranges. It can be reached by pack trails, either from the south side of the Lake or from the river trail.

The land seekers are coming by ones and twos, no rush. It suits us just as well for we have a better chance to pick and choose our company.

The growth of garden stuff, grain and grasses is much more advanced here than on Stoney Plain.

The country has put on its robes of beauty and every landscape is surpassingly fair. Now is the time for the lover of the beautiful to visit our district before the mosquitoes and sandflies get too troublesome. The roads were never drier in several years.

ASTLEYVILLE NEWS
Mr. Hood visited this district last week with a view to starting Presbyterian services here, commencing on Sunday, May 31st. The services will be held at H. Astley's residence, and will be conducted by Mr. Hood. The services will commence at 6 p.m.

We are longing to see our school-house finished which we hear will soon be in course of erection. It will be a source of comfort to parents and a very great benefit to the children of the district.

Mr. C. G. Jones visited Astleyville last week.

Mrs. Thos. Jones, who has been visiting Mrs. Astley for the past few weeks, left for Edmonton today accompanied by Mrs. Astley, Mr. C. Jones, and Mr. W. Jones.

The majority of settlers in this district are through seeding.

SETTLERS' EFFECTS FOR EDMONTON DISTRICT

From the first of January to the first of May of this year fifty thousand dollars worth of settlers' effects came into the Edmonton station free of duty. In the same period a very large amount of dutiable goods were brought in by the same settlers. These are very significant facts and are a true index to the financial condition of the numerous settlers who have located near Edmonton. The above figures deal only with the settlers who have unloaded their effects at Edmonton station, and not with those who unloaded at Strathcona, Wetaskiwin and other places for the Edmonton district.

WILL OFFER ON

MONDAY, MAY 4th, 1903,

200 = LOTS = 200

A portion of the ROWLAND ESTATE, otherwise known as "THE SYNDICATE."

Plans and Prices can be seen at the Office on and after the date mentioned.

This is the closest and best property available, and the choicest in and about Edmonton. The furthest part is from 10 to 15 minutes from the post office. The property is eminently the people's portion: is not controlled by a policy of inertia dictated by "Hebraic Hatred." The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Prices will be uniform and moderate, tempered as a corrective of the present indefinite craze.

TERMS.—One third Cash. Balance 6 and 12 months, interest 8 per cent. Agreements \$2 each, transfers free.

W. H. HOOPER COMPANY REAL ESTATE.

RESOLUTIONS

The following resolutions were passed at the recent convention of the North Central Liberal Association.

RESOLVED.—That we desire to place on record our appreciation of the great ability manifested by Sir Wilfrid Laurier and his colleagues in their administration of the affairs of the Dominion, whereby unparalleled trade prosperity has been enjoyed by Canada, unprecedented immigration has been set in motion to these Territories and an era of rapid development brought in that is of the greatest import to the welfare of all classes. And especially do we express admiration and approval of the prudent and statesmanlike fiscal policy of the government whereby the great agricultural and consuming classes of the country are saved from the further encroachments of insatiable manufacturers and monopolists. And therefore we declare our confidence in the present Liberal government of Ottawa as the channel through which these Territories will derive the assistance that is necessary to meet the urgent requirements of our swiftly changing conditions—which assistance is an imperative national duty.

2 RESOLVED.—That we have heard with profound regret of the recent illness of our esteemed representative, Frank Oliver, M.P., and take this opportunity of expressing our deep interest and very warm regard; and also of conveying this assurance of our great appreciation of the ability and fidelity he has ever shown in advocating the cause of this Great West, as well as of the untiring attention and activity he has given to our welfare at the present session of parliament. In return we pledge him our loyal support and devotion.

3 RESOLVED.—That no other public problem of the hour is comparable either in magnitude or importance to that of transportation, and therefore we strongly sanction a progressive railway policy embodying such adequate aid as will insure rapid construction and thereby bring early relief to the present intolerable conditions of congestion and blockade.

4 RESOLVED.—That a vital part of the great transportation problem is the construction of good wagon roads leading from the railway lines back into the country, and suitable appropriations should be placed at the disposal of the Northwest government for this purpose, without delay, so that the millions devoted to necessary railway facilities shall not fail of their purpose by the absence of the initial means of transportation which every settler must have, namely: the coun-

try road, therefor beside the provision for other expenditures a response to the recent appeal for "Good Roads" is a duty to the settler as well as to the nation.

5 RESOLVED.—That in order that the Northwest government may be able to meet the enormous demands involved in the rapid expansion that is taking place in the Territories, ample appropriations ought to be forthcoming at once so that development may not be checked by the inefficiency of the public service and by the roads, bridges and other public works of the Territories suffering utter neglect, thereto the representations of the Northwest Assembly in this behalf are commended to the prompt and favorable consideration of the government.

6 RESOLVED.—That copies of these resolutions be forwarded to our representatives in the House of Commons, Frank Oliver, M.P., for presentation to the government.
